Name: _____

Address: _____

City: _____ State: _____ Zip Code: _____

Complete and Sign Below:

I(We) understand that service is subject to the rates and conditions of Audubon Water Company's Tariff which is available at www.audubonwater.com.

I(We) understand that I(We) will be billed for water usage on fire services.

I(We) understand that all meters must be set in a vault at or as near as possible to the curb line. I(We) also understand that the vault is provided and installed by the customer. A meter will neither be set nor will service be activated if the required meter setup is not correct.

I(We) understand that water distribution system pressure varies and that it is the applicant's responsibility to inquire as to the maximum system pressure or minimum pressure they will be connecting to and ensure their plumbing system is in compliance with all code requirements.

I(We) have reviewed and understand the provisions in the company tariff; specifically the **Backflow Prevention Program**.

An existing well cannot be physically connected to the public water system and, if found, is grounds for immediate termination of service.

I (We) am/are the owner(s) of the property requesting service.

I (We) are in compliance with Township plumbing ordinances regarding low-flow fixtures and have reviewed the water conservation information on the AWC website.
