Dear Audubon Water Company Customer,

As you may know, Audubon water is a well water company. It seems with little snow and odd rain patterns, the aquifer that supplies the wells, some for 70 years is changing. The water level in the aquifer is subject to more rapid changes. Consequently, Audubon's well levels are very low for this time of year. Audubon is asking all its customers to do what they can to limit water use. Audubon is taking steps to ensure it will be able to continue to provide adequate, efficient, safe and reasonable service to its customers. Your help in this matter will keep Audubon from making further water use restrictions. We are all in this together. Thanks,

Audubon Water Company.
